

*Biodiesel production*

**Westray has enormous potential for renewable energy.**

We aspire to 100% equivalent energy production from community renewable projects by 2012.

Partnership and community schemes have the potential to produce significant revenue for community benefit.

# *Renewables*

## **Projects Include:**

- *Implement renewable plan*
- *Implement partnership with Unst in Shetland to develop complementary projects*
- *Develop renewable related light industry*
- *Produce and sell bio-diesel*
- *Develop wind turbine sites*
